AUTO DETAILING EQUIPMENT

TORNADORS & TORNADOR PACKAGES

TORNADOR BLACK INTERIOR CLEANING TOOL \$199.95

A pneumatically operated spray gun which very finely atomizes soap, water and air and dispenses it under high pressure. Removes dirt and grime quickly & uses lower consumption of the cleaning product (Detail King Interior Super Soap). The newly developed rotation-set in the nozzle is more powerful and cleans faster than the original Tornador Interior Cleaning Tool. There's NO wear of rotary hose & funnel as the medium guide is ball-bearing and does not come into contact with the nozzle. Saves time, energy and cleaning chemicals. Works with small or mobile compressors. Comes standard with an air-regulator so you are now able to change the working pressure directly on the tool and also to regulate the capacity of chemicals accurately.

TORNADOR FOAM GUN \$129.95

Now you can generate aerosol type foam using your favorite multi purpose cleaners or our Black Cherry car wash soap. Save time and money when using the Tornador Foam Gun. Perfect for carpets, seats and exterior applications. Now you can control the amount of foam and strength by using the products you normally use in detailing operations. Just like the Tornador Cleaning Tool the Foam Gun is operated with compressed air. Just connect to an air compressor, for best results pressure psi should be set at 60-100 psi, do not use over 110 psi.

TORNADOR INTERIOR CLEANING TOOL \$129.95

Air/liquid cleaning tool & detailing machine. Totally unique air driven oscillating tip and nozzle creates a tornado cleaning action that tackles some of the most challenging jobs. Save time & product costs. Clean dirty car interiors faster and better! Uses a pressurized air process to spray mixture of water & soap Tornador Super Soap. Wipe area with towel or brush, turn a lever to air purge & help dry the cleaned surfaces. Soap, water & air are all combined into one tool for ease of operation! Step by step instructions included. Air compressor required. Do not exceed 110 psi.

TORNADOR ZV-240 VELOCITY VAC DRY \$159.95

The Tornador ZV-240 Velocity Vac is an innovative tool which combines pressurized air with high powered vacuum suction. By combining the outstanding cleaning power of two machines in one, the Velocity Vac makes cleaning carpets and upholstery easier than ever! The Tornador ZV-240 patented ball-bearing rotation quickly lifts dirt and grime from carpet fibers that other vacuums leave behind. The unique shape and technology of the cone also adds additional suction power to your vacuum. Simply, attach the ZV-240 to an air source and a wet/dry vacuum and be blown away with the efficiency of this tool!

FLEX PE8 LIGHTWEIGHT 3 INCH ROTARY POLISHER \$209.95

The FLEX PE8 Lightweight 3 Inch Rotary Polisher is a specific purpose-built polisher designed specifically for small, tight and intricate body panels. The Flex PE8 Lightweight 3 Inch Rotary Polisher is much less cumbersome than a full-size rotary polisher, making it the perfect choice for spot repair, motorcycle detailing, and other applications where a compact polisher will come in handy!

RANDOM ORBITAL POLISHERS

NEW FLEX XFE 7-15 150 RANDOM ORBITAL POLISHER \$409.95

This Flex XFE 7-15 150 is the ultimate auto detailing paint polishing machine that will save you time and money while receiving professional results. This random oscillation also has a exceptionally "long throw" of 15 mm. This machine features: VR microprocessor control, optimized emissions, and a continuous speed control trigger. It weighs 5.2 lbs and contains a 1 year warranty.

PORTER CABLE 7424XP POLISHER \$149.95

The Ultimate Car Polisher for the serious auto care enthusiast or the do-it-yourselfer who wants an automotive polisher that is safe to use and provides awesome results. There is no way the human hand can achieve the results that are obtainable with a high quality car buffer or dual action polisher. 2500-6800 OPM - variable speed. Comes with one white finishing pad mounted to its own backing plate. Velcro backing plate and other pads available

FLEX XC3401VGR DUAL-ACTION POLISHER \$379.95 \$439.95/WITH 25' CORD

This Flex XC3401VGR is a true dual-action polishing machine. There's a huge difference between the Porter Cable 7424 the pads do not rotate, they oscillate, or jiggle, in a random pattern designed to simulate hand application. The "throw" or amount of "jiggle" is not disclosed by Porter Cable but it is very, very small. With the Flex XC3401VGR, the pads do have a forced circular motion, they rotate or "cut". Plus, as the pads rotate, they oscillate, or move, in a random pattern. Hence the name, dual action.

CYCLO POLISHER \$299.95/Polisher Only \$327.95/w Rubber pad holders

This dual orbital action polisher has an exclusive "gentle hand" cam action that allows the two heads to move independently in overlapping motions. Achieve hand-rubbed quality at a faster rate. No chance of heat buildup or burning the paint. Professional swirl free finish. Great for clear coats & the novice detailer. 6.5 lbs, 3,200 opms, heavy-duty cast aluminum, 60 cycle, 1/3 HP, 2.0 amps, 115V, 60HZ. Includes the buffer, wrench & pad holder boots. Quick connect adapters and pads sold separately.

CYCLO POLISHER MODEL 5 PRO - W/ VARIABLE SPEED CONTROLLER \$349.95

Includes 2 backing plates for quick pad changes and a variable speed controller! Mechanisms ensure smooth, swirl-free polishing. Has exclusive vibration elimination system & hook & loop fasteners. 115 V., 60 Hz., 220 Watts, AC, 650-3000 orbits/minute, 1/3 H.P., 6.5 lb., 10' cord, heavy-duty cast aluminum, double insulated, 3 year warranty. Includes: 3 weighted inserts, hex-key wrench, flat wrench and our own Cyclo Polisher Operating Guide.

GEM ORBITAL POLISHER/WAXER \$299.95/13 lb. \$309.95/16 lb.

You can use this polisher to remove light to medium oxidation and water spots with the proper polish or polishing compound. Our Vibra Cut Lite works great with this polisher. The Gem orbital polishers are also a great tool to apply the final layer of protection. Our Cherry Wet Wax or the STS 3000 Poly Sealant are excellent choices to protect the paint and seal in your work. Overall height is 8" - RPM: 1730.

BUFFPRO MODEL JF 180 SWIRL-FREE BUFFER W/ POLISHING PAD \$429.00

The BuffPro Model JF180 Axial Polisher is a revolution in professional polishing offering a true swirl-free finish. Not only does the BuffPro Drum Polisher not produce swirl marks, it can even remove swirls made by conventional rotary buffers. This is a tool that can buff and polish just about any surface in half the time of conventional rotating pad buffers. Our axial cylinder design means that compound and polish stays under the buffering pad, while conventional buffers fling it off to other areas. The larger pad means that you can get better performance at much lower RPMs. We offer two high quality pads that work with the widest range of compounds to cut, polish, buff and finish to the highest shine possible.

The Rupes X-Cut Sanding Discs are perfect for the removal of heavy paint imperfections, and finish down without leaving heavy pigtails like some abrasives do. These Rupes X-Cut Foam Sanding Discs provide that great finish, without the deep scratches.

RUPES SOFT INTERFACE PAD - 5 INCH \$10.95/Each

The Rupes Soft Interface Pad is for use with the Rupes LHR12E Duetto when sanding using the 5" X-Cut sanding pads.

RUPES LHR 12E DUETTO

RANDOM ORBITAL POLISHER \$319.95

The Rupes LHR 12E Duetto is equally effective working with soft or interface backing pads teamed with micro-abrasives during the defect correction step or with foam polishing pads and compounds during the polishing stage. The combination of duetto and microabrasives is especially effective when smoothing orange peel or significant defects.

RUPES LHR 75E MINI

RANDOM ORBITAL POLISHER \$299.95

The LHR 75E mini is the polisher for difficult shapes and for spot repair operations. The LHR 75E mini is a must for any detailer wishing to obtain perfect results, even in the most difficult areas. Thanks to the backing pad with small diameter, the LHR 75E mini is perfect in polishing applications on small and intricate areas. The small machine dimensions and the 12 mm orbit allows for a comfortable handling and accuracy in detail polishing.

RUPES KERAMIK GLOSS FINE GEL POLISH

\$19.95/250ML \$69.95/1000ML

This compound is specially formulated to be effective on clear coats that are particularly hard. The compound is used for the final polishing step following dust nib or spot removal with microabrasives. This compound produces hologram free finish.

RUPES DIAMOND ULTRA FINE GEL POLISH \$19.95/250ML \$69.95/1000ML

Designed for the last step of the finishing process, this compound gives the surface a particular brightness and depth of color. The compound is water soluble, making removal of any residue extremely easy. The compound produces the high gloss shine.

RUPES MICROFIBER PADS

\$19.95/4 INCH \$24.95/6 INCH

The Blue Microfiber Cutting Pads are designed for removing heavy swirl marks, scratches, and oxidation from any color paintwork. The cutting version features a short dense microfiber and is perfect for use with heavy cutting BigFoot polishing compound. The special microfiber allows for the true correction power of the product used and for maximum product coverage. The Yellow Microfiber Finishing Pads are designed to restore the depth and clarity to your vehicle's paintwork. The long and soft microfiber is perfect for removing light swirl marks, holograms using fine and ultra fine BigFoot polishing compounds. The Yellow Microfiber Finishing Pads eliminate light imperfections delivering a perfect optical grade finish.

PORTER CABLE & FLEX ORBITAL PADS

LAKE COUNTRY 6.5 HYBRID POWER FINISH ULTRA PERFORMANCE PAD SYSTEM \$10.95/Each

Many years of intense research and development have established the new Lake Country Hybrid Power Finish Ultra Performance Pad System. This innovative group of buffering pads is made from all new, state-of-the-art foam materials you won't find anywhere else. Each pad has a more dense composition to provide better control and awesome cutting or polishing action. Lake Country Hybrid Power Finish Pads stand up to the rigors of machine buffering and polishing time after time!

LAKE COUNTRY 6.5" CCS PADS FOR FLEX & PORTER CABLE DA's \$12.95/Each \$35.95/3 Pack \$48.95/All

CCS Technology is Lake Country's innovative pad design that saves product by controlling product release onto the work surface. Dozens of dimples in the foam collect excess polish and reserve it until it is needed on the pad's face.

Yellow (Compounding/Cutting): Use this pad to apply light or heavy compounds to remove severe oxidation, swirls, and scratches. Works great with our Diamond Cut or Diamond Cut Ultra. It is the most aggressive and should only be used on oxidized and older finishes.

Orange (Light Cutting Firm): High density foam for light to medium scratches, water spot and defect removal. Use this pad with our Diamond Cut polish compound, Buff 'N Bling One Step Compound/Polish or our Spyder Web Hi Tech Swirl Remover Glaze.

Green (Soft Polishing): Use this foam to apply finishing glazes, polishes and one-step polish waxes/sealants. Use our Foam Pad Glaze II, Blue Diamond Polish Sealant, One Step Prep II as a light paint leveler/polish.

Red (Ultra Soft): Use the red foam pad for applying the final coat of wax or paint sealant. This pad works great when applying liquid waxes or paint sealants because it is firm enough to keep most of the product on the paint, rather than soaking up into the pad.

FOAM PADS FOR PORTER CABLE RANDOM ORBITAL POLISHER

\$11.95/Each \$32.95/3 Pack \$97.95/3 of Each

These are 6" wide by 2" thick, superior quality foam. Hook & loop grip backing, see Velcro backing plate next column. For use with Porter Cable orbital polisher model #7424XP.

White (Polishing Pad): Used to remove to apply polishes, glazes, one-step cleaner/waxes, and swirl removers.

Yellow (Cutting Pad): Removes light to moderate oxidation.

Black (Finishing Pad): Used to apply paste and liquid waxes and paint sealants.

6" TERRY BONNETS

\$3.95/Each \$20.95/6 \$38.95/Doz.

Use these 100% cotton heavy-weight terry bonnets to remove wax with your Porter Cable random orbital polisher. These fit over the foam pad. 6.5"

6" MICROFIBER BONNETS

4" EDGE SINGLE SIDED PRECISION FOAM PADS FOR CYCLO POLISHERS

4 inch foam pads made with Cyclo's unique foam compositions plus has patented Quick Change Adapter System of the new Edge 2000 Foam Pads! Double sided - just flip it over and use the other side! These pads use the same self centering design as the Edge adapter. Use 3/4 inch wrench to tighten the adapters into the Cyclo Polisher, then snap two of the Cyclo 4 inch pads in place and you're ready to polish! Vibration is virtually eliminated! The Quick Change System eliminates the rubber boots (pad holders) and the two orbiting heads.

Yellow (Compounding/Polishing): pads for maximum cutting on paint finishes w/heavy oxidation or scratches.

Orange (Heavy Glazing/Polishing): pads for medium polishing. For light to medium oxidation and scratches.

Green (Glazing/Polishing): pads for light polishing. For paint that is in relatively good shape.

White (Finishing): pads for final polishing or application of paint sealant or wax. Least aggressive pads.

CYCLO QUICK CONNECTOR ADAPTERS \$39.95/1 Pair

Use these adapters to quickly connect the new Cyclo Double Precision Foam Pads. Price shown is for 1 pair of adapters.

4" LAKE COUNTRY FOAM PADS

4" LAKE COUNTRY FOAM PADS

\$7.95/Each \$20.95/3 Pack \$20.95/1 of Each \$34.95/1 of Each w/
Backing Plate

Yellow (Compound/Cutting): Use this pad to apply compounds or heavy buffing polishes to remove severe oxidation, fall-out damage, deep swirls, and scratches. Use our Diamond Cut Ultra, Diamond Cut or Extreme Cut. The yellow foam is the most aggressive and should only be used on finishes that have medium to severe correctable blemishes. Always follow this pad with the green pad and a clear coat safe premium polish like our Foam Pad Polish/Glaze or the AMAZING Blue Diamond Polish to restore the paint to a slick, smooth, glamorous finish.

Orange (Light Cutting/Heavy Polishing): This is an excellent, high density foam with light cutting power. It works well for applying microfine compounds like our Diamond Cut and leveling scratches and swirls. You will want to try this pad first before using the yellow pad; you always want to start out with the least abrasive pad necessary for the job and move to the more aggressive if necessary.

Green (Polishing/FInishing): Use this medium duty foam pad to apply one-step polish/waxes, foam pad polishes like our One Step Prep, Foam Pad Glaze, and Blue Diamond Polish. The green foam is used for the correction of minor paint imperfections including the removal of light scratches, swirls, micro marring, recent water spots, and light duty environmental fall-out. This will be one of the most popular foam polishing pads that you will be using.

LAKE COUNTRY 3.75" (3 3/4") ROTARY VELCRO BACKING PLATE \$14.95

The Lake Country 3.75 inch (3 3/4") Flexible Backing Plate is made of a flexible, molded urethane. This backing plate bends to allow the polishing pad to contour to the curves of the vehicle. The end result is an even finish with less risk of buffer swirls. Inside the plate, steel struts are molded to the center hub for greater stability and balance. This backing plate will remain balanced through countless uses so you always get an even finish.

3M EDGE FOAM PADS

EDGE CLASSIC FOAM PADS \$14.95/Each \$69.95/1 of Each

Black Foam Pad: (open cells) is to be used on clear coats to remove deeper scratches, acid rain, heavier oxidation and environmental fall-out. This product works great with our Diamond Cut Ultra heavy duty clear coat compound. Our most aggressive foam pad. Velcro backing for easy on and off.

Yellow Foam Pad: is to be used on clear coats to remove medium scratches, most water spots, and medium oxidation. This product works great with our Diamond Cut & Diamond Cut Ultra Compounds. Velcro backing for easy on and off.

Green Foam Pad: is to be used on clear coats to remove light scratches and light oxidation. This product works great with our Foam Pad Glaze, One Step Preps, Spyder Web Glaze, Buff 'N Bling and Zippy Car Wax. Velcro backing for easy on and off.

Blue Foam Pad: is to be used on vehicles that are relatively new and their paint is in excellent condition. This product works great with our Foam Pad Glaze, One Step Prep II, and our Zippy Car Wax. Velcro backing for easy on and off.

White Foam Pad: is to be used on clear coats as the final polishing step. This product works great with our Foam Pad Glaze and Zippy Car Wax. Can be used with a buffer at a low speed to apply STS 3000 or our Cherry Wet Wax. Has Velcro backing.

8" WAVE 2000 EDGE PAD (DOUBLE SIDED)

\$25.95/Each \$100.95/1 of Each \$130.95/1 of Each w/Industrial Adapter
Convoluted-faced buffering pads resist "hopping" that may occur when flat-surface pads dry out. Allows air to circulate, cooling the surface. Double-sided pads reduce splattering of chemicals & fluids. Top quality reticulated polyester foam. Bevel design allows you to reach tight areas with high-speed buffer. Work with less binding & crouching. No backing plate to damage car. Adapter enables you to snap pads on and off instantly and center them perfectly every time. Flip pads over when the opposite side wears down. Saves \$\$\$ over single sided pads.

Yellow (Medium/Heavy Cut): This is the most aggressive of the Wave pads. It will cut through medium to deep surface marks and swirls (micro scratches).

Green (Medium Cut Polish): Everyday cutting pad for average cars with light oxidation & moderate swirls (micro scratches). Yields amazing results on vehicles that are a few years old.

Blue (Soft Polish): Versatile pad for regular use. Use on cars that come back for regular cosmetic touch-ups. Will leave surface areas scratch-free & smooth while removing light imperfections.

White (Ultrafine Polish): Ultra smooth surface, finer than any pad on the market. Creates a bold, crystalline gloss. For new, exotic or expertly restored cars. Use this pad at a slower speed.

Lake Country 6.5" Rotary Microfiber Buffing Pad \$13.95/Each

Lake Country Ultra-Fiber Microfiber Pads utilize the most recent microfiber technology to provide a single design that can be used for compounding and polishing! This 6.5" pad will work with the standard Makita, De Walt or Flex Rotary velcro backing plates.

Edge Wave 2000 Quick Connect Pad Adapter \$23.95

The Edge Wave 2000 Quick Connect Adapter enables you to snap pads on and off instantly and center them perfectly every time. Lifetime Guarantee. You will need this adapter to use the Edge 2000 Wave two sided pads. You will not need a velcro backing plate!

AUTO RECONDITIONING KITS & SUPPLIES

3" DA Pneumatic Orbital Palm Headlight Buffer/Sander \$269.95

Our 3" DA Pneumatic Orbital Palm Headlight Buffer/Sander is an air-powered buffering tool used to quickly and efficiently help restore foggy and oxidized headlights. Use this tool in conjunction with the 600 and 1500 grit sand paper and the orange polishing pads. You can restore headlights without this tool, but if you are restoring headlights in any volume you may want to consider adding this to your arsenal.

HEADLIGHT RESTORATION MEDIUM DUTY ORANGE POLISHING PADS \$5.95

Use the Orange Medium Duty Foam Polishing Pad (attach to head of buffer - hook and loop material) after you have finished sanding with the 600 and 1500 grit sanding disks. Apply a small amount of the Cleaner Polish to the pad and begin polishing the headlamp. This is the final step prior to applying the shine restorer.

HEADLIGHT RESTORATION SANDING DISCS - 600 GRIT \$27.95/50

Use these 600 grit sanding discs to remove heavy oxidation from the headlight lamps. These discs would be used as the first sanding step after using the cleaning product. Follow up with 1500 sanding discs afterwards. These sanding disks have hook and loop backing and are to be used with the pneumatic buffer.

HEADLIGHT RESTORATION SANDING DISCS 1500 GRIT \$27.95/50

Use these 1500 grit sanding discs to remove light oxidation and scratches from the headlight lamps. These discs would be used as the second sanding step after using the 600 grit sanding discs. Follow up with the cleaner polish next and use the orange polish pad. These sanding disks have hook and loop backing and are to be used with the pneumatic buffer.

HEADLIGHT RESTORATION SAND PAPER 10 SHEETS \$5.95

Use sandpaper along with Sand-E-Z as one of the first steps to restore cloudy headlights. Only use the 600 sandpaper if you tried the 1000 grit and it was not coarse enough. The 600 grit may put deep scratches into most lens covers. If the headlights are extremely cloudy start with the 600, then 1000. the 1500 and finally the 2000 grit.

HEADLIGHT INTENSITY METER \$89.95

Our AIM 2000 Headlight Intensity Meter is designed specifically for the testing and verification of the intensity of headlamps. The AIM 200 is a hand held device that incorporates a meter with graduated scale noting light intensity in kilo-candela of the lamp tested. As the emitted light enters the light receptor, the dial of the meter will increase in value and proportion, indicating a legal/illegal headlamp.

Auto Detailing Training Institute

DEDICATED TO ASSISTING THE ENTREPRENEUR

Detail King's Auto Detailing Training School

Detail King Auto Detailing Training Institute LLC is a Private Licensed School approved by the State of Pennsylvania. Our auto detailing school provides the industry's most comprehensive, auto reconditioning and car detailing hands-on training programs available anywhere. Whether you are a seasoned veteran detailer or just starting out, our training will help you learn the skills needed to operate a successful and prosperous detailing operation. Our training will also assist individuals that have career goals for being employed as a technician at detailing business types. It is critical to be properly trained as a technician in this industry so you can start and grow your business and be prepared when running into unexpected "road blocks." Our training not only helps you prepare how to deal with these "road blocks" but will also shorten the learning curve. We are committed to providing the best education possible, and have recently added the addition of a 2,500 square foot classroom to our training facility.

Craftsman Class (3 Day)

Our Craftsman Program is a three day auto detail training seminar that is limited to only 12 students. The First Day the student will be introduced about how to start, operate and grow his or her new auto detailing or mobile auto detailing business. It is the very same course that we have for the Technician Program. Knowing the "business side" of operating and managing an auto detailing business is just as important as the actual hands-on methods and procedures. The Craftsman's Program is designed for students that want more individualized instruction. We spend an entire day on exterior detail training (Day 2) and an entire day on interior detail training (Day 3). The student to trainer ratio is 2:1. The student will also be introduced to additional profitable exterior and interior reconditioning services that are not part of the Technician Program curriculum. Additional Training: Vinyl and Leather Repair, Cigarette Burn Repair, Dying of Carpeting & Mats, Odor Removal, Paint Chip Repair, Plastic Trim Restoration, and Headlight Restoration. This auto detail training seminar is held monthly usually Friday through Sunday at our training center in Pittsburgh, PA.

Technician Class (2 Day)

Our Technician Program is a two day auto detailing training seminar that is limited to 15-20 students. The First Day of the detail training seminar students will be introduced about how to start, operate and grow his or her new auto detailing or mobile auto detailing business. Knowing the "business side" of operating and managing an auto detailing business is just as important as the actual hands-on detailing training. The second day of the detail training seminar is dedicated to hands-on exterior detail training and interior detail training methods and procedures. The student will actually detail a designated vehicle completely with the help of his assigned trainers and classmates. Unlike most auto detailing training seminars that we know of you will actually be "detailing" versus just watching demonstrations and viewing detailing tutorials. The instructors will show the proper techniques and methods for using the buffers, polishers, extractors, vacuums, brushes, towels, tools and detailing accessories.
